

GEWO[®]

THE BETTER WAY TO PLAY

NEWS 2025

CELEXIS

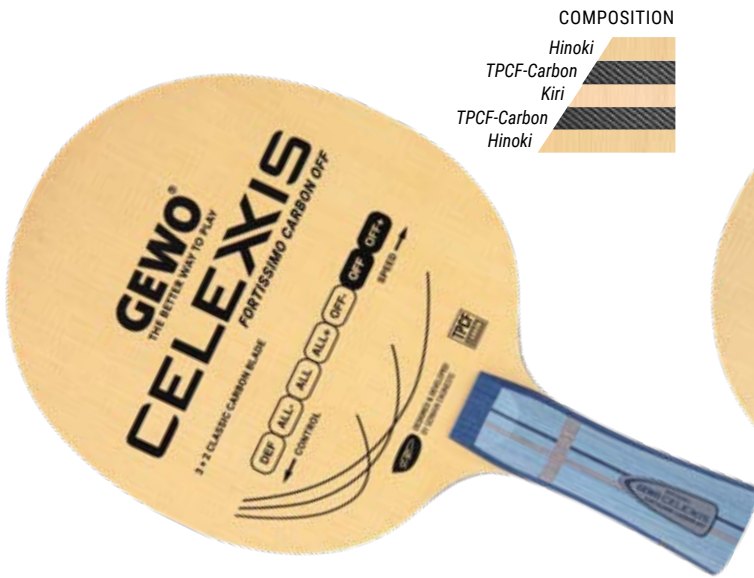

CELEXIS stands for innovation, the adaptation and optimization of the GEWO blade range to the latest rubber series, and the promise to our customers to develop the right material for every type of player.

DESIGNED & DEVELOPED
BY GERMAN ENGINEERS

**THIN POWER
CARBON FIBER**

GEWO Celexxis Fortissimo Carbon OFF

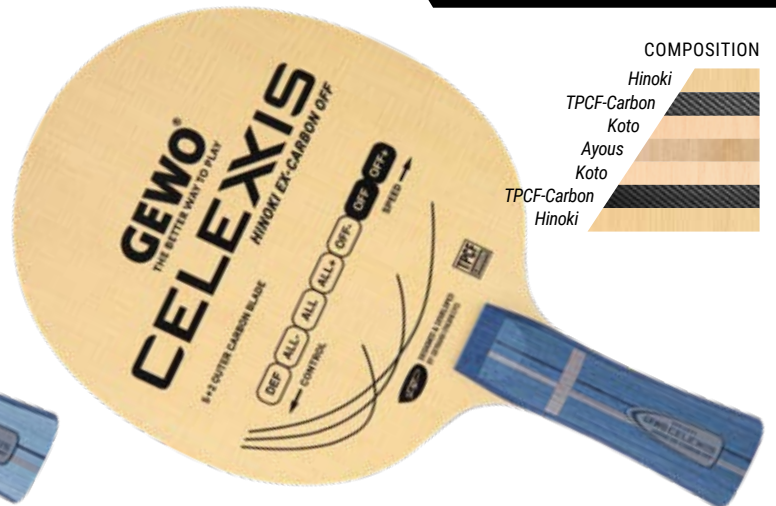

OF/OF+

The fastest blade in the Celexxis series! A thicker Kiri core veneer is encased by the innovative TPCF fiber (Thin Power Carbon Fiber) and completed with two exquisite Hinoki outer veneers. The high base speed is still sufficiently controllable thanks to the sophisticated bonding, allowing players to score quickly, powerfully, and safely. The relatively soft Kiri core veneer provides the necessary ball feel and a moderate ball rebound. In all offensive situations, the TPCF fiber fully comes into play, while the unique touch of the Hinoki outer veneer makes the GEWO Celexxis Fortissimo Carbon OFF blade the perfect choice for players who want to take control. Whether playing with controlled, spin-loaded strokes or maximum power and speed, the Celexxis composition enables players to dictate the game at any moment.

speed: 108, **control:** 80, **weight:** 86 – 90 g, **handle:** flared, straight, chin. Penholder
veneers: 3+2, **composition:** Hinoki – TPCF-Carbon – Kiri – TPCF-Carbon – Hinoki

Item no.: 11652

159.90 € Available from April 2025

GEWO Celexxis Hinoki Ex-Carbon OFF

OF/OF+

A premium blade with an exquisite Hinoki outer veneer—sophistication and power combined in one blade! The playing characteristics have been fine-tuned with a slightly stiffer bonding, resulting in a more precise ball rebound. This ensures that even the hardest rubbers in the GEWO range can fully shine. The handle is slightly more angular but still provides a comfortable grip. Additionally, the newly designed transitions to the blade head prevent excessive top-heaviness. The highlight, however, is the new TPCF fiber (Thin Power Carbon Fiber). It not only enhances stability and speed reserves for offensive strokes but also reduces weight, preventing the racket from becoming too heavy.

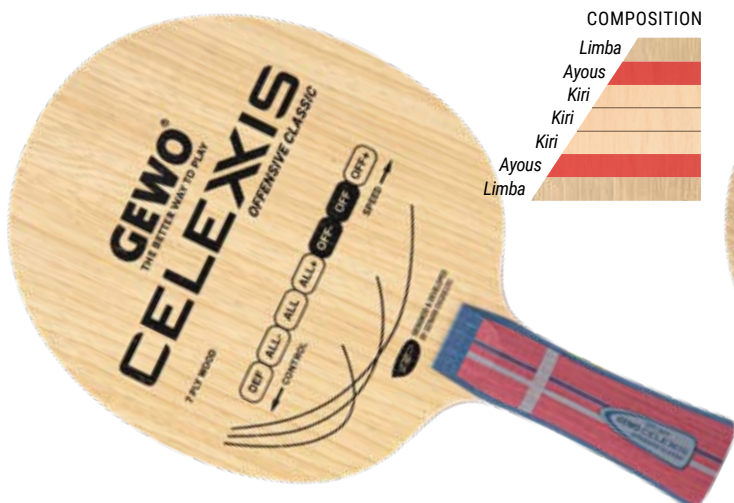

speed: 103, **control:** 89, **weight:** 86 – 90 g, **handle:** flared, straight, chin. Penholder
veneers: 5+2, **composition:** Hinoki – TPCF-Carbon – Koto – Ayous – Koto – TPCF-Carbon – Hinoki

Item no.: 11651

144.90 € Available from April 2025

Although the trend in recent years has clearly been toward fiber-reinforced blades, there are still many players who rely on high-quality all-wood blades for their game. GEWO aims to meet these needs as well and has therefore introduced not only two new and innovative fiber-reinforced blades (featuring **TPCF fiber**) in the Celexxis series but also a **5-ply Allround+** model and a **7-ply offensive** model, both entirely without synthetic fibers.

GEWO Celexxis Offensive Classic

OF

This 7-ply powerhouse offers the perfect mix of high speed and outstanding ball feedback. Countertopspins, powerful and well-placed shots, as well as the all-important touch play over the table, are all optimally supported. The Celexxis Offensive Classic is sure to excite all offensive strategists who rely on fast yet still sufficiently controllable all-wood blades.

speed: 99, **control:** 92, **weight:** 86 – 88 g, **handle:** flared, straight, chin. Penholder
veneers: 7, **composition:** Limba – Ayous – Kiri – Kiri – Kiri – Ayous – Limba

Item no.: 11653

79.90 € Available from April 2025

GEWO Celexxis Allround Classic

AR+/OF

Featuring a classic veneer construction and proven playing characteristics, the GEWO Celexxis Allround Classic is built for the offensively oriented allrounder. The 5-ply glued Limba-Ayous combination provides a blade whose performance can be relied on at all times. It offers precise feedback, the necessary offensive options, and excellent spin properties, making it the perfect companion for ambitious young players or tactically sensitive allround strategists with a drive for offense.

speed: 88, **control:** 94, **weight:** 86 – 90 g, **handle:** flared, straight, chin. Penholder
veneers: 5, **composition:** Limba – Limba – Ayous – Limba – Limba

Item no.: 11654

69.90 € Available from April 2025

FLEX FORCE PRO

Whether it's quick changes of direction, fast sprints or dynamic stops – the FLEX FORCE PRO gives you the support you need. With its innovative combination of breathable and durable materials, this indoor shoe ensures optimum grip, a comfortable feel and responsive movements. The upper material consists of a clever mix of PU, TPU and mesh – lightweight, robust and breathable at the same time. Around 25 % of the shoe is reinforced with heat-sealed TPU to protect high-wear areas from heat, cold and moisture – without adding weight. The rest of the PU and mesh upper material ensures durability, flexibility and a fresh foot climate, as moisture is optimally wicked away.

- ➔ Breathable & stable
- ➔ High-quality material mix: mesh, PU & TPU
- ➔ Dynamic spiral system for freedom of movement
- ➔ Responsive Phylon cushioning with stabilization
- ➔ Non-marking rubber sole for optimum grip

GEWO Xolo Offensive Carbon

OF

GEWO Xolo Offensive

OF/OF-

GEWO Xolo Allround

AR/AR+

This very fast Off blade with integrated carbon layer stands for uncompromising attacking! Thanks to the carbon in the blade, even the most ferocious topspins can still be controlled and played with feeling. The GEWO Xolo Carbon blade is just perfect for uncompromising attackers who need to keep control of the ball despite high speed. Carbon blade offering excellent price-performance ratio.

Fun-to-play, dynamic 5-ply Off blade. The well-balanced ply combination of GEWO Xolo OFF not only guarantees great control, it also provides for excellent acceleration in topspins and all other attacking shots. The budget alternative for players looking for a fast but controllable Off blade.

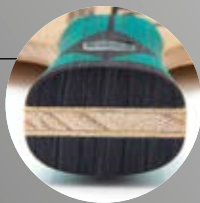

Variable all-round 5-ply blade for controlled and precise attacking. The blade features good elasticity and sufficient speed, which makes it ideal for beginners and controlled attackers.
